Ellis Rubinstein
President and Chief Executive Officer
The New York Academy of Sciences

Dear Mr. Rubinstein,

I am writing to express my interest in the Program Manager position for The Blavatnik Awards for Young Scientists Program. This opportunity to promote a scientific program awarding the next generation of scientists is really appealing to me.

In my previous positions, I designed, implemented and managed new programs to support one of the best research networks in Chemistry and University in Europe. During that time, I worked closely with scientific leaders in a strong interdisciplinary environment and acquired an excellent ability to deal with all aspect of scientific evaluation. I am therefore accustomed to successfully manage multiple evaluations beyond my original field of expertise as well as an extensive grant portfolio.

I have also an excellent tracking record of managing multiple projects simultaneously, involving multiple deadlines and different types of stakeholders. Thus I truly believe I will be an excellent asset to your team, bringing my extensive experience and an in-depth understanding of both grantmaking and grantwriting processes. Passionate about Chemistry, with an enormous intellectual appetite for Science, I will bring my full dedication to enhance The Blavatnik Awards for Young Scientists to this new level.

A copy of my resume is enclosed for your review and consideration. I am looking forward to hearing from you to discuss how I could further contribute to the success of The Blavatnik Awards for Young Scientists Program.

Best Regards,

Sylvestre Gug, PhD
